

# FORESIGHT STUDIO

YOUR SPRINT TO THE FUTURE

## DEEP DESIGN

What will the next big  
transformation mean to our  
business?

An innovative format from

# Reinvent your corporate DNA

Man becomes an evolutionary force that creates autonomous systems, smart materials and artificial beings. Deep Design is based on the progress in nano and biotech, material science and engineering and puts people increasingly in a position to interfere creatively with nature, from functional bacteria and smart surfaces via growing human organs in the lab to climate engineering. Discover the implications and opportunities for your company in a deep workshop session.
